Das Modell Suva Die vier Grundpfeiler

Le modèle Suva Les quatre piliers de la Suva

Il modello Suva I quattro pilastri della Suva

Die Suva ist mehr als eine Versicherung; sie vereint Prävention, Versicherung und Rehabilitation.

La Suva est mieux qu'une assurance: elle regroupe la prévention, l'assurance et la réadaptation.

La Suva è più che un'assicurazione perché coniuga prevenzione, assicurazione e riabilitazione.

Gewinne gibt die Suva in Form von tieferen Prämien an die Versicherten zurück.

Les excédents de recettes de la Suva sont restitués aux assurés sous la forme de primes plus basses.

Gli utili della Suva ritornano agli assicurati sotto forma di riduzioni di premio.

Die Suva wird von den Sozialpartnern geführt. Die ausgewogene Zusammensetzung im Suva-Rat aus Arbeitgeber-, Arbeitnehmer- und Bundesvertretern ermöglicht breit abgestützte, tragfähige Lösungen.

La Suva est gérée par les partenaires sociaux. La composition équilibrée du Conseil de la Suva, constitué de représentants des employeurs, des travailleurs et de la Confédération, permet des solutions consensuelles et pragmatiques.

La Suva è gestita dalle parti sociali: i rappresentanti dei datori di lavoro, dei lavoratori e della Confederazione siedono nel Consiglio della Suva. Questa composizione paritetica permette di trovare soluzioni condivise ed efficaci.

Die Suva ist selbsttragend; sie erhält keine öffentlichen Gelder.

La Suva est financièrement autonome et ne perçoit aucune subvention de l'Etat.

La Suva si autofinanzia e non gode di sussidi.
